

MEEN2250
Computer Aided Engineering
Spring Semester 2009

Dr. Matthew J. Traum
University of North Texas (UNT)

Assignment 00: Unofficial Transcripts
Due: Monday, January 26, 2009 @ 2pm

MEEN 2250 requires as a prerequisite MATH 2700 “Linear Algebra” or the equivalent. To ease enrollment barriers for new transfer students, the Mechanical and Energy Engineering Department did not enforce this requirement during the registration process. However, to assure that the MEE program meets ABET accreditation requirements, individual faculty members are mandated to confirm students meet the entry requirements for all MEE courses.

Please deliver to Dr. Traum a copy of your UNT Transcript (unofficial transcripts are acceptable). Highlight a) your name and b) MATH 2700 (or the equivalent) on the transcript so they are easily distinguishable.

Students who fail to demonstrate prerequisite completion for MEEN 2250 will be dropped from the class on 1/28/2009.
